

## **COVID-19 STUDIO HEALTH & SAFETY MEASURES**

*(Updated July 2022)*

Please make sure you and your student are familiar with the below information so that we can all promote safety for ourselves, our classmates, and our staff members while at Principle Dance. Dancers and Staff Members are expected to adhere to all current Studio Measures in order to participate.

*Measures are subject to change with any state or local requirements or if we feel we would like to take any additional precautions if Covid cases are on the rise in our community.*

---

1. Effective May 2022, masks are encouraged though optional at the studio. **Exception:** Masks are required for those that have recently tested positive, on days 6-10 from the start of symptoms. Those persons may only return, masked, when they have a negative test result on Day 5 post-positive result.
  2. Unless otherwise indicated, Parents or Guardians may return to the lobby areas before, during, or after your student's class(es). You may watch class from the lobby areas. We ask that you please refrain from watching class from the studio doorways as it is easily distracting to the class, teachers, and dancers.
  3. If your student is experiencing Covid-like symptoms, or has been exposed and is not vaccinated, we ask that you please exercise caution and do not send your student to dance until a test can be taken on the appropriate day after exposure. All classes missed due to this, or any illness, can be made up according to our Make-Up Class Policy (listed under Studio Policies).
  4. We ask that Students continue to please arrive with their class uniform already on, no more than 10-15 minutes ahead of their scheduled class time. The restrooms are available for quick changes if necessary.
  5. The water cooler is open for students to use, though we ask that students continue to bring their own water bottles that can be refilled as we will not be providing water cups.
  6. Hand sanitizing stations will remain in all lobby areas for students to use before and/or after classes.
  7. We are continuing to clean and sanitize our studios, lobbies, bathrooms, and communal props daily and/or after use.
  8. If a dancer has a break in-between classes, they are permitted to remain at the studio as long as they are following all above, or current, measures.
